David Walton, IE

SUMMARY

Mr. Walton is a consultant with Accumyn's exploration and production consulting activities. He has more than 39 years of drilling experience with international and domestic operators as well as offshore drilling contractors. His strengths include well site drilling and completion supervision, well planning, project management, rig management, logistics, engineering, contract preparation, negotiations and sales. During his career he managed projects with HDM / Noble Energy, ENI / Crescent, Azeri Drilling Company, ENSCO International Inc. and Arco Oil and Gas, providing him with exceptional prerequisites to professionally address almost any aspect of upstream oil and gas production.

Mr. Walton began his career as a project engineer in 1974 for Diamond M Company (now Diamond OFFSHORE) with head quarts in Houston, Texas. Later he worked for ARCO, ENSCO PLT and finally consulted for Dominion, ENI, GFI, Noble Energy, GSPC and Azeri Drilling.

Mr. Walton holds a Bachelor of Arts Degree in Economics and a Bachelor of Science degree in Ocean Engineering. He is a certified WCS / MMS well control – drilling, completion and workover.

EDUCATION AND CERTIFICATIONS

Education:

Hampden Sydney College	BA Economics	Graduated	1970
Florida Atlantic University	BS Ocean Engineering	Graduated	1974
Pepperdine University	20 Hrs towards MBA		1985

Industry Schools

Murchison Drilling, Floating Drilling, Vetco Subsea, Sperry Sun Directional Drilling, Preston Moore's Well Design, Not Destructive Testing, Neal Adams Pore Pressure School, Prentice and Records Well Design, IADC School, E.I. du Pont de Nemours and Company Safety, Karras Negotiating, Well Control, Management Safety Systems, Jonah program for Strategic Planning - The Gloldratt Institute at Yale and various ARCO in house drilling schools.

Certification

WCS / MMS well control – Drilling, Completion and Workover – Sept 2014

PROFESSIONAL HISTORY AND REPRESENTATIVE ENGAGEMENTS

Accumyn 2014 to present

Consultant – expert witness involving cases related to upstream oil and gas industry.

April 2010 to Nov 2013

Sr. Offshore Drilling Supervisor – Mari B, Tamar, Leviathan projects offshore Israel and Cyprus.. Fixed platform and deepwater semi work – offshore gas projects.

ENI / Crescent

September 2009 to May 2009

Sr. Offshore Drilling Supervisor – Well WC 130 #3 (Sidetrack and Re-completion) and ST 268 #1 (Exploration well) – MP 280 --U.S. Gulf.

Azeri Drilling Company

May 2008 to Sept 2008

ADC – Azerbaijan - Consultant - Engineering Study of Drilling Problems, including blowouts and stuck pipe incidents – cause and solutions.

DMI / GFI

October 2007 to March 2008

Baulang Development project – Thailand. Offshore drilling supervisor responsible for the drilling of 6 shallow development wells, rig evaluation and planning. Scope of work included planning the conversion of a barge and land rig to an offshore Drilling tender.

Newtech Engineering / GSPC

Jan 2006 to July 2007

Sr. Offshore Drilling Supervisor – Bay of Bengal (India) – responsible for drilling well KG 16, a HTHP / H2S well – BHT + 400 degrees. Additional responsibilities included the onsite training of engineers.

Hamilton Engineering / Dominion E&P

Sept 2005 to Dec 2006

Offshore Drilling Supervisor responsible for the drilling of HTHP wells in U.S. OCSG waters, primarily in the West Cameron Area. Experienced in all phases of drilling offshore wells including but not limited to situations involving well control, loss circulation, and the drilling of depleted zones.

ENSCO International Inc.

June 1994 to Sept 2005

Sr. Project Engineering Manager, Rig Manager, Sr. Account Manager, Corporate Engineering Project Manager

- Country Manager for rig operations in Brazil, Mexico, Pakistan, Thailand and Vietnam. Responsible for day to day operations and interaction with clients.
- Onsite Project Management for the refurbishment of five Jackup Rigs at sites in Texas, Malaysia, India and Singapore. Developed work scopes, schedules and onsite supervision. All of the projects were successfully completed within budget and allotted time.
- Corporate Project Engineering Manager – Corporate planning and coordination of the construction of ENSCO's first semi-submersible – the ENSCO 7500 built at TDI Halter as well as the ENSCO 101, a harsh environment jackup built at FELS Singapore.

- Sr. Account Manager responsible for USA sales and business development. Responsible for the procurement of a four year contract resulting in the construction of the ENSCO 8500, ENSCO's second DP deepwater semi -submersible.

Arco Oil and Gas

April 1986 to June 1994

Senior Drilling Engineer and Senior Drilling Supervisor

- Senior Drilling Engineer - Gulf Coast Division. Responsibilities included the planning, drilling and completion of shelf and deepwater wells in US OCSG waters. Duties also included onsite supervision.
- Senior Drilling Supervisor - onsite supervision of the drilling and completion of wells in Gabon, New Zealand, Indonesia, Yemen, and the North Sea. Duties included engineering support and direct supervision of offshore drilling and completion operations.

Diamond M Company

April 1980 to April 1986

International Area Manager, Drilling Superintendent, Turnkey Manager

- Turnkey Manager – Chile - for the drilling of 12 offshore wells. Responsibilities included well planning, acquisition of materials, bidding, interaction with the client, legal representative and onsite supervision of the drilling process. All wells were drilled under budget and within the time planned. Planned and bid turnkey projects in Brazil, Peru and Australia.
- Area Manager – Brazil, Chile and Australia - Responsible for jackup and semi-submersible operations. Duties included marketing, operations, environmental concerns, budgeting and materials control.
- Drilling Superintendent- U.S. West Coast - Responsible for the operation of three Semi-Submersibles.
- Drilling Superintendent – U.S. Gulf Coast - Responsible for Jackup, Platform and Barge Rig operations. Promoted to Operations Manager – USA Domestic – March 1986.

Arco Oil and Gas

June 1977 – April 1980

Drilling Engineer / Drilling Supervisor

- Involved in the planning and supervision of ARCO's first West Texas pressurized coring operations and casing pack operation.
- Responsible for the planning and drilling of wells in the Midland , Texas area and U.S. OSGC waters.
-

Diamond M Company

December 1974 to June 1977

Project Engineer

- Design Engineer / Project Manager – Responsible for the refurbishment and installation of platform rigs.
- Engineering support for the construction of two semi-submersibles and a jackup.
- Practical experience included working the positions of roustabout, roughneck and derrick hand.

Virginia State Penitentiary – Richmond, Virginia

June 1970 to January 1972

Math Teacher

- Instrumental in the introduction of college courses within the state penitentiary system.
