

CURRICULUM VITAE OF EVANN J. ANDERSON

www.accumyn.com

EVANN J. ANDERSON Consultant

SUMMARY

Mr. Anderson, a Consultant at Accumyn, has assisted with business valuations, forensic accounting, damages analyses, and financial and economic analyses. He has assisted with the preparation of research, financial modeling, analyses and expert reports in matters involving intellectual property, personal injury, breach of contract, breach of fiduciary duty, and insurance disputes.

Prior to joining Accumyn, Mr. Anderson was experienced with accounting and financial analyses. He has extensive experience serving the non-profit industry in the fiscal department, assisting in providing oversight of audits and payroll processes. Additionally, he has extensive knowledge in individual income taxation.

SELECTED SUMMARIES OF ENGAGEMENT EXPERIENCE

- Assisted expert in connection with a dispute involving alleged infringement of patents related to technology created for 360-degree virtual reality video and photography. Work included assisting in the preparation of the expert report, review of financial statements and company filings, and performing quality control.
- Assisted expert in connection with a dispute regarding amounts owed to beneficiary pursuant to life insurance policies. Work included assisting in review and analysis of company financial statements and tax returns, and assisting the expert with the preparation for deposition.
- Assisted expert in connection with a damage claim regarding a personal trust. This assignment required the rebuttal of an opposing expert's opinions addressing the value of lost earnings based on hypothetical investment alternatives. Work included assisting expert in the preparation of expert report, including assisting in the preparation of calculations, charts, tables and diagrams.
- Assisted expert in connection with the preparation of expert report, including review and analysis of financial statements, budgets, reservoir reports, accounting, and other material of certain interests in oil and gas properties. Work included assisting in analysis related to the valuation of the oil and gas properties and ownership units and assisting with the preparation tables and charts used in the expert report.
- Assisted expert in connection with a claim for lost profits and damages in a dispute between an quasi-governmental industrial development corporation and a water utility. The water utility alleged lost services and related lost net revenues to customers in an approximately 500 acre area owned by the industrial development corporation. Work

included the review and critique of water utility's alleged damages report based on estimated future net lost revenues. Assisted with the review of regulatory filings, bond prospectus, authoritative source documents, and material produced by the parties pursuant to the litigation.

- Assisted multiple experts in connection with a dispute between a former CEO and the bankruptcy trustee of an oil and gas exploration and production company. Work included assistance preparing materials analyzed for use in expert report and assisting experts with the preparation for deposition.
